

To our valued clients and suppliers,

Our first priority at Dudick is the health and safety of all our employees and all who interact with our firm. We are constantly monitoring this epidemic and implementing safeguards for all.

We have made plans to maintain operational effectiveness when and if any of our employees become infected. From our production department to field sales, all are prepared to assume other positions as needed.

Several employees, either due to age or pre-existing conditions, have been instructed to work remotely. We have increased office and workroom cleanings and have continued to encourage more frequent hand sanitizing.

As you know the situation is fluid and we will continue to make changes to ensure health and safety for all. We will keep all of you posted of any changes. We will maintain operational effectiveness regardless of cost.

Regards,

Tom Dudick
President

Chemical Containment & Flooring Systems
