**Environmental
Priority and
Opportunities**

Environmental issues are a priority for Dudick. We capitalize on every opportunity to incorporate renewable and recyclable ingredients into our floor coatings and wall systems, making our operations as green and sustainable as possible.

*Committed to
the Environment*

Steri[™]
Floor and Wall Systems

Our Commitment to the Environment

Being sensitive to environmental concerns is something Dudick takes very seriously. The concepts of green project goals and sustainability aren't new to us. We've always looked for ways to incorporate renewable and recyclable ingredients into our floor coatings and wall systems.

The formulations of our Steri floor and wall system product line are a case in point. We initially started providing protection for heavy industry and then moved into labs, universities, life science technology, pharmaceutical and healthcare facilities. Protection materials for these fields require products that are green and sustainable to a significantly higher degree. Our Steri products meet those requirements.

Our wall and floor system materials are 100% solids and zero VOC, which can be a contributor toward LEED certification*.

Dudick is committed to continuing – and expanding – our efforts on all fronts to ensure rigorous standards in response to environmental concerns.

Being sensitive to environmental concerns is something Dudick takes very seriously. We've always looked for ways to incorporate renewable and recyclable ingredients into our floor coatings and wall systems.

*The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System is the nationally accepted benchmark for the design, construction, and operation of high performance green buildings.

LEED and related logo is a trademark owned by the U.S. Green Building Council and is used by permission.

Our Commitment to You

Service. Service. And more service.

That's the commitment of our Dudick team – and the secret to our success – for clients all over the world.

Our job isn't done until your wall and flooring systems are fully installed, and you are totally satisfied. No excuses. No compromises. We're not satisfied until our customers are satisfied. Period.

Our products are state-of-the-art with exceptional durability. Founded in 1970, we have 40 years of experience under our belt and more than 115 years of combined installation experience.

A 100% commitment to service and quality. This is our pledge to you.
