

Industrial Maintenance Solutions

Polymer Solutions for Concrete/Steel Repair

Dudick delivers: ... superior products, protection and service.

Dudick is a world leader in custom-engineered high-performance flooring, coatings, and linings. We have the best products for your application needs and stand behind them. We ensure you get exactly what you need when you need it for your specific situation.

Proven quality and long-term durability

All Dudick products are engineered and manufactured for the highest possible performance level. They pass the most rigorous tests for quality and long-term durability. Dudick flooring systems are fast and easy to apply in the harshest environments and retain a smooth, clean appearance with minimal care and cost.

Service, service, and more service

Service is the secret to our success - for clients worldwide. We have nearly four decades of experience and more than 115 years of combined installation experience at your disposal. Our job is not done until our system is fully installed and our customers are 100% satisfied. Period.

... solutions for every industry.

INDUSTRIES	LOCATION/PROCESS	FEATURES

Industry problems. Dudick solutions. Engineered for performance.

Problem: Spalled and pot-holed concrete slabs/floors

C Grout

- Fast-setting 100% cementitious repair mortar
- 4000 PSI in 8 hours

Polymer Concrete

- Formable, chemically resistant, concrete that can provide full-depth chemical protection

Scratch-Coat 300

- Fast-setting epoxy filler
- User-friendly application

Problem: Cracked concrete

Protecto-Coat PS

- 50% elastomeric epoxy-polysulfide coating

Protecto-Flex

- Fiberglass crack repair
- When crack must be absolutely sealed
- Bridges nearly 1/8" (3mm) cracks

Problem: Failed concrete joints - moving cracks

Caulk 75

- Polyurea fast-setting
- Polymer joints - expansion joints

Caulk 149

- General purpose for epoxy polysulfide joints

Problem: Oily, dirty, contaminated concrete

Steri-Prime DTO

- Deep, penetrating, moisture tolerant, an emulsified primer for oil-contaminated floors

Problem: Frequent hot wash-downs

Shock-Crete

- Urethane mortar for spills from -350 to +400°F (-177 to +204°C)

Problem: Worn pumps, valves, and shafts

Polymer-Steel

- Fast-setting repair putties for critical machined surfaces

Problem: Staining and yellowing

Sealer 50

- Fluoropolymer non-yellowing sealer for all floors/walls

Problem: Corrosion/abrasion of interior steel tanks

Protecto-glass

- Systems for immersion or fumes up to 350°F (177°C)

High Performance Seamless Wall and Floor Systems

DUDICK + CARBOLINE

In 2021, Carboline announced the acquisition of Dudick, Inc. Dudick is a world leader in high-performance coatings, flooring, and tank linings headquartered in Streetsboro, Ohio. For over 50 years, Dudick has provided solutions in corrosion resistance and chemical containment systems for food processing, steel production, chemical processing, pulp and paper, electronics, power, and biological research labs.

Dudick will remain a stand-alone brand within Carboline sold by both the existing Dudick team and the global Carboline direct sales team. Dudick customers can expect to receive the same quality products and service they have become accustomed to with Dudick but with the additional benefit of more distribution points and an expanded team to better serve customers.

Carboline customers now have access to the high-performance products offered by Dudick.

The Dudick Difference

Why is the service from Dudick superior to that of other manufacturers? It's our highly-trained field technicians. Dudick technicians are former applicators with extensive front-line experience working with our products. Quality products, industry leading technical support, all backed by the power of the Carboline brand: that's the Dudick Difference.
